

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my concerns about the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will not only increase tension among passengers, it will compromise flight attendants' ability to maintain order in an emergency. Cell phone use could also enable terrorists to coordinate a plan of action more effectively. Isn't it enough that we have to listen to personal conversations in the grocery store, in the mall, out to dinner! Cell phones have become a nuisance in our lives and I agree that their use in planes is unnecessary and distracting. Please leave the current rules in effect.

Sincerely,

Robin Charron
